SUMMARY

Dynamic and detail-oriented Frontend Developer with extensive experience designing and implementing user-centric web applications using JavaScript, ReactJS, HTML, and CSS. Skilled at creating reusable UI components, optimizing user experience, and collaborating efficiently with back-end teams for seamless API integration. Proven ability to deliver innovative, high-quality solutions in fast-paced environments. Committed to enhancing usability and achieving business goals through modern web technologies.

SKILLS

- | | | |
|-----------------------------|---|---|
| • Front end web development | • Angular JS | • Cross-browser compatibility |
| • HTML | • JavaScript (ES6+) | • UI component libraries (e.g., Material-UI, Bootstrap) |
| • CSS | • Figma (UI/UX design) | |
| • Responsive design | • Penpot (UI/UX design, open-source tool) | |
| • Next JS | | |
| • React JS | | |

EXPERIENCE

Web Developer, InfluxIQ Tech Private Limited

March 2025 – Present

- Implemented responsive web designs to ensure optimal performance across various devices and screen sizes.
- Optimized website performance by minimizing load times and improving rendering speed.
- Conducted thorough testing and debugging to ensure cross-browser compatibility and a bug-free user experience.
- Integrated third-party libraries and tools to enhance functionality and user interaction.
- Participated in code reviews and collaborated with team members to maintain code quality and consistency.
- Utilized version control systems like Git for efficient source code management and collaboration.
- Worked closely with UI/UX designers to translate design mockups into functional, interactive web interfaces.

- Developed and maintained comprehensive documentation for front-end development processes and components.
- Stayed updated with the latest industry trends and best practices to continuously improve front-end architecture.
- Implemented accessibility standards (WCAG) to make web applications usable for people with disabilities.

Trainee Web Developer, Creatixia

December 2022 – February 2025

- Developed and maintained user-facing websites using HTML, CSS, JavaScript, and ReactJS.
- Collaborated closely with the back-end developers to integrate API calls into the front-end codebase.
- Created UI components with reusable codes for a better user experience.

EDUCATION

BACHELOR OF TECHNOLOGY IN CIVIL ENGINEERING - 2022

Regent Education and Research Foundation, **Barrackpore**

DIPLOMA IN CIVIL ENGINEERING - 2019

KIIT POLYTECHNIC, BHUBANESWAR

HOBBIES & INTERESTS

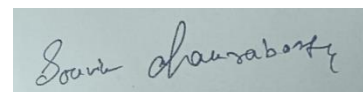

- Learning new programming languages and frameworks.
- Mentoring or coaching junior developers.
- Keeping up with news and current affairs.
- Watching matches (football and other sports).

CAREER GOALS

To leverage my expertise in front-end development, modern web technologies, and UI/UX design to build engaging, high-performance web applications. I aim to continuously enhance my skills, contribute to innovative projects, and collaborate with talented teams where I can drive user experience and deliver robust digital solutions that support organizational growth and customer satisfaction. My long-term goal is to grow into a lead developer role and inspire best practices in web development.
